Installation Notes

Tower Mount

Power Requirements

Tower Mount (P7, P7 Plus)

- 1 x 15 Amp receptacle near tower

Data Requirements

- 1 x wired internet connection near tower

Lighting Requirements

Minimum Lightinglevel:

- 150 Lux

Maximum Lightinglevel:

- 350 - 400 Lux

Ideal Lightinglevel:

- 200 Lux

Direct daylight should be avoided. Ideally, the lighting conditions in the room should be dimmable and uniform throughout the putting green. Any measures needed to ensure the right lighting conditions will be taken care of by the operator of the facility and are not part of this spec sheet.
